

MCL 24C AUGER BORING MACHINE BY MCLAUGHLIN BORING SYSTEMS

DOG PLATE.

Fully hydraulic dog plate with integral dog pin indicators to provide accurate dog pin position.

OPERATOR CONSOLE.

Clear and simple console allows all functions from operator's platform, integral hydraulic manifold reduces plumbing and increases functionality, vandal shield protects console when not in use.

HYDRAULIC TRACK BREAK.

Keeps machine in position while moving dog plate.

SINGLE PIN HOLD DOWNS.

Pin in up position to remove and pin in down position to bore. Hold downs always stay with the machine.

FUEL TANK.

Plastic fuel tank with integral fuel gauge.

REDESIGNED TRACK.

Track has integral cross member at push plate. It also has thick side plates with center rib to aid in pulling augers.
